DETAILED ACTION

1. Applicant's response filed 5-27-03 and 9-8-03 have been received.
2. This application contains claims 7 and 8 have been drawn to an invention nonelected with traverse in Paper No. 6. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
3. The new abstract filed 9-8-03 has been entered.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Hill et al (US 6095147, dated 8-1-00, filing date 12-1-1994) for reasons of record set forth in the previous office action of 2-26-03.

It is noted that applicants failed to respond to this rejection.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having

Art Unit: 1632

ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

7. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hill et al (US 6095147, dated 8-1-00, filing date 12-1-1994) in view of Ruschke et al (US 6,063,109, 5-16-00, filing date 9-17-1998) for reasons of record set forth in the previous office action of 2-26-03.

Response to Arguments

Applicant's arguments filed 5-27-03 have been fully considered but they are not persuasive. Applicants' arguments are not relevant because the differences they describe between the claimed invention and that in the cited patents are not recited in the instantly claimed invention. For example, claim 1 has only one step-irradiating the optic nerve with energy from a laser to damage capillaries feeding the anterior portion of the optic nerve and this limitation is taught by Hill et al (see page 3, paragraph #7 of the office action of 2-26-03). It is noted that applicants have tried to read the specification in the claims by describing how the claimed invention is different from that of Hill et al or Ruschke et al. However, instantly claimed invention is to a method, not a composition and none of the limitations/differences discussed by the applicants is recited in the claimed invention.

Therefore, the rejection of the claimed invention is maintained for reasons of record.

8. No claim is allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1632

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
